

# OUR MELBOURNE YOUR AIRPORT

**MELBOURNE AIRPORT**

Welcome to our regular community newsletter to keep you informed about Melbourne Airport operations and projects, runway plans, opportunities at the airport and other related news.

We welcome your feedback about what is important to you.

## Third Runway Approved

Melbourne Airport welcomes the Federal Government's approval of its planned third runway, which will deliver much-needed aviation infrastructure capacity for Victoria, help support thousands of new jobs for Victorians and give passengers and exporters more choice.

The Minister for Infrastructure, Transport, Regional Development and Local Government approved

the Major Development Plan for the project last month, which paves the way for detailed design and construction to start.

The approval follows a 104-day community consultation period in 2022 and a robust assessment of the project's benefits and impacts.

The 3,000-metre-long runway will be built parallel and 1.3 kilometres to

the west of the existing north-south runway, along with new taxiways and other enabling infrastructure.

When it opens in 2031, the parallel runway system will allow for simultaneous take-offs and landings, which will help meet increasing freight and passenger demand, reduce delays, support competition and give existing and new airlines the infrastructure they need to grow.

# Community helps shape approval

Melbourne Airport’s third runway will deliver jobs and economic growth for Victoria as well as other significant opportunities, particularly for the people of Melbourne’s north and west.

The Federal Government has imposed a suite of conditions on the project to address community feedback.

Melbourne Airport will establish a comprehensive noise amelioration program encompassing residential dwellings, childcare and education facilities most affected by aircraft noise from the third runway, primarily around Keilor and Bulla.

The program requires extensive research and will be developed over the next two years with community, local councils and government agencies.

We will be in touch with those affected by these plans over the coming months to outline next steps.

The length of the existing east-west runway will be restored to maximise opportunities for noise sharing when the third runway opens. This will involve developing a new Major Development Plan for the ‘Eastern Extension Project’ and public consultation of the project in 2026.

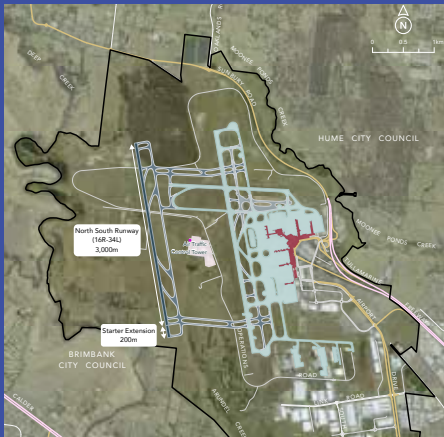

Melbourne Airport will also facilitate a long-term study into health impacts

of aircraft noise on the community in areas surrounding the airport. Details of the study will be developed with input from the Melbourne Airport Community Aviation Consultation Group and will be undertaken independently.

## Developing new flight paths

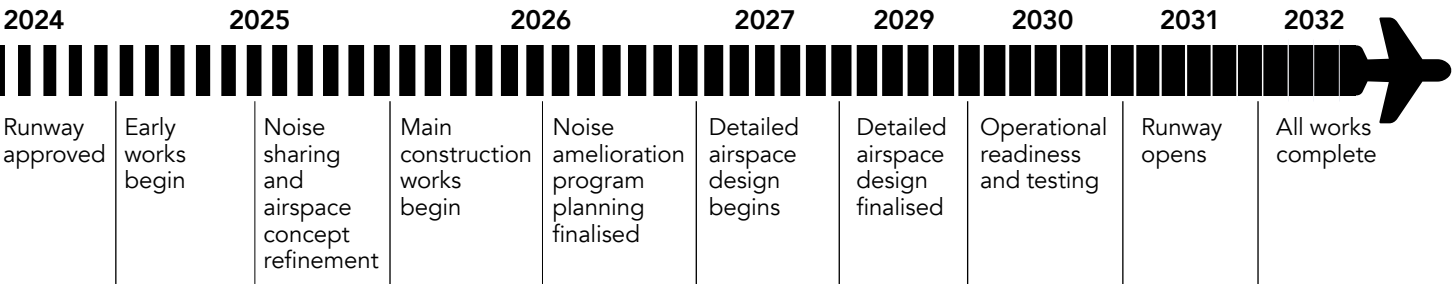

The third runway is scheduled to open in 2031. Development of the new runway will require changes to Melbourne’s airspace, including new and altered flight paths. The early designs shared in the now approved third runway Major Development Plan will be further detailed and refined. This process will be undertaken in collaboration with Airservices Australia over the next two years and will involve extensive public consultation to ensure community feedback is incorporated.

## Got a question?

If you have a question about the new runway project, please email [newrunway@melair.com.au](mailto:newrunway@melair.com.au) or contact us on (03) 9297 1597.

Community consultation will occur throughout the project. Scan the QR code for details on where you can speak to us in person.

## Have your say on Elite Park

Melbourne Airport has released a Preliminary Draft Major Development Plan for commercial development of 'Elite Park'.

The 32-hectare site, located between the Tullamarine Freeway and Airport Drive, is expected to support 2,140 jobs across a range of industries, which will largely be filled by people from nearby communities.

Public consultation runs until Friday 20 December. Written submissions can be made by:

## Investing in our young people

Melbourne Airport is proud to have signed five-year partnership agreements to support Western Chances and Banksia Gardens and the important work they do with young people in Melbourne's north and west.

This cements Melbourne Airport's long-standing relationship with both organisations and allows them to continue supporting children and young people to overcome barriers to education.

## Improving accessibility

Melbourne Airport is partnering with Travellers Aid to trial dedicated terminal mobility hubs to help travellers who require assistance moving between drop-off and pick-up zones and check-in, baggage claim and gate areas.

The four-month trial will operate Monday to Friday from 10am to 6pm and offers the following free services:

- accessible information to assist with airport navigation and understanding
- buggy transfers between the T4 ground transport hub (including car park, PTV bus service, taxi rank and Uber) to all terminals, with wheelchair connections to all airline check in and departure locations
- wheelchair transfers from hubs located at Virgin Australia and Qantas baggage claim to Skybus, taxi or Uber
- sensory packs to help calm anxious passengers and communication boards for non-verbal travellers
- Hidden Disability Sunflower Program lanyards and information.

More details about accessing these can be found on the Melbourne Airport website.
